Professional Summary

Software Developer with 1+ year of experience in Flutter and Android application development, specializing in building offline-first mobile applications, responsive UI, and JSON-based data management. Experienced in Agile, Scrum, Sprint-based development, Jira, and Zoho, with a strong focus on delivering scalable, high-quality software solutions. Skilled in Flutter, Dart, Android, REST API integration, debugging, QA, and deployment.

Technical Skills

Languages: Dart, Core Java, HTML5, CSS3, JavaScript

Frameworks & Technologies: Flutter, Android Development, REST APIs, JSON, Offline-first Applications, Responsive UI

Database: MySQL,PostgreSQL

Tools: Git, GitHub, VS Code, Android Studio, Eclipse, Postman, Jira, Docker, ClickUp

Testing & Methodologies: Manual Testing, Functional Testing, Debugging, Agile, Scrum, Sprint Planning

Professional Experience

Software Developer June 2026 – Present
Vidwath Innovative Solution

- Promoted to **Software Developer** in recognition of strong technical contributions and consistent project delivery.
- Developed and enhanced Flutter-based mobile applications by implementing scalable, maintainable, and high-performance features.
- Designed and optimized responsive UI components while improving application performance and user experience.
- Worked extensively on offline-first architecture using JSON-based content management and local data handling.
- Integrated and maintained REST APIs, optimized application workflows, and resolved complex production issues.
- Collaborated with cross-functional teams in Agile and Scrum environments, participating in sprint planning, code reviews, and feature discussions.
- Gained hands-on experience with **Docker** for development environments and project setup.
- Mentored junior team members during feature implementation, debugging, and testing activities.
- Leveraged AI-assisted development tools to improve productivity, debugging, and code quality.

Junior Software Developer June 2025 – May 2026
Vidwath Innovative Solution

- Developed and maintained Flutter-based Android applications for **Vidwath Learning App 3.0** and **Vidwath Learning App 4.0**.

- Built offline-first learning features using JSON-based content management.
- Designed and implemented Registration, Feedback, and content management modules.
- Integrated REST APIs and optimized application workflows.
- Generated Android APKs and supported deployment activities.
- Worked using Agile, Scrum, Sprint Planning, and Jira for project management.
- Debugged application issues across Android devices and emulators.
- Performed Manual Testing, Functional Testing, and Quality Assurance activities.
- Identified, tracked, and verified software defects throughout the Software Development Life Cycle (SDLC).
- Developed responsive HTML, CSS, and JavaScript modules for the **Nalikali Activity Project**.
- Leveraged AI-assisted development tools for debugging, code optimization, and productivity.

Projects

Brain Stroke Risk Prediction

- Developed a deep learning-based Brain Stroke Risk Prediction system using the HDTL-SRP framework.
- Improved prediction accuracy through model optimization.

VCT Tea Website

- Developed a responsive website using HTML, CSS and JavaScript.

Education

Bachelor of Engineering (Computer Science and Engineering)
Ghousia College of Engineering, Ramanagara 2020–2024

CGPA: 8.36/10

Training, Internships & Certification

Full Stack Java Development Training June 2024 – May 2025

- Completed hands-on training in Core Java, JDBC, MySQL, HTML, CSS, JavaScript, and MVC Architecture.
- Earned the Full Stack Java Development Certification.

Full Stack Web Developer Intern Oct 2022 – Nov 2022
Varcons Technologies Pvt. Ltd., Bangalore

Web Development Intern (Python) Aug 2023 – Sep 2023
Take It Smart (OPC) Pvt. Ltd., Bangalore

- Developed responsive web applications using HTML, CSS, JavaScript, and Python while participating in testing, debugging, and feature enhancement activities.
