Professional Summary

Flutter Developer with 1+ year of professional experience building and maintaining cross-platform mobile applications using Flutter and Dart. Experienced in developing responsive user interfaces, integrating REST APIs, handling JSON data, and implementing offline-first application features. Familiar with state management concepts, including Riverpod, application debugging, performance optimization, and functional testing. Also experienced in full-stack development using React.js, Node.js, and Express.js, with a strong interest in exploring AI-powered applications and integrating AI technologies.

Technical Skills

Programming Languages: Dart, JavaScript, Core Java, HTML5, CSS3

Mobile Development: Flutter, Android Development, Cross-Platform Applications, Responsive UI, Offline-First Applications

State Management: Riverpod, State Management Concepts

API & Backend: REST API Integration, JSON, Node.js, Express.js, Axios

Database: MySQL, PostgreSQL, MongoDB, SQLite

Tools: Git, GitHub, Android Studio, VS Code, Postman, Jira

Testing & Methodologies: Functional Testing, Manual Testing, Debugging, Performance Optimization, Agile, Scrum

AI: Familiar with AI-assisted development tools for debugging and code productivity; interested in AI-powered application development and integrating AI services into mobile applications

Professional Experience

Software Developer June 2026 – Present
Vidwath Innovative Solution

- Developed and enhanced Flutter-based mobile application features using Dart for Android platforms.
- Built responsive and user-friendly UI components to improve application usability and performance.
- Integrated REST APIs and handled JSON-based data for application functionality.
- Implemented offline-first application features with local data handling and content management.
- Debugged production issues, resolved application crashes, and improved application stability.
- Performed functional testing and verified application behaviour across Android devices.
- Collaborated with backend developers and cross-functional teams to deliver application features.
- Used Git and GitHub for version control and AI-assisted development tools for debugging and code improvement.

Junior Software Developer June 2025 – May 2026
Vidwath Innovative Solution

- Developed and maintained Flutter-based Android applications using Dart.
- Implemented application modules, including Registration, Feedback, and content management.

- Integrated REST APIs and handled JSON data for application workflows.
- Developed offline-first learning features for Android applications.
- Generated Android APK builds and supported application deployment.
- Identified, debugged, and resolved application issues across Android devices and emulators.
- Performed manual testing, functional testing, and application quality assurance.
- Collaborated with team members using Agile, Scrum, and Git-based development workflows.

Projects

Field Service Management Mobile Application *Flutter, Dart, Riverpod, Node.js, Express.js, MongoDB, JWT*

- Developing a cross-platform mobile application using Flutter and Dart.
- Building responsive mobile interfaces with Riverpod for state management.
- Integrating REST APIs using Dio for seamless frontend and backend communication.
- Implementing authentication and role-based access for Admin and Technician users.
- Developing features for technician assignments, customer management, job tracking, and status updates.
- Building backend services using Node.js, Express.js, and MongoDB.

Employee Management System *React.js, Node.js, Express.js, MongoDB, JWT*

- Developed a full-stack Employee Management System with employee CRUD operations.
- Integrated REST APIs, JWT authentication, and MongoDB for secure employee data management.
- Implemented dashboard features including employee statistics, search, department filtering, and employee management.

Personal Portfolio Website *React.js, Vite, JavaScript, Vercel*

Live Portfolio

- Created a responsive personal portfolio website using React.js and Vite to showcase professional experience, technical skills, education, and projects.
- Built reusable React components with responsive layouts, modern UI animations, and interactive navigation.
- Integrated Git and GitHub for version control and deployed the application using Vercel.
- Structured the portfolio to provide recruiters with an overview of technical skills, professional experience, and project work.

Brain Stroke Risk Prediction

- Created a deep learning-based Brain Stroke Risk Prediction system using the HDTL-SRP framework.
- Improved prediction accuracy through model optimization.

Education

Bachelor of Engineering (Computer Science and Engineering)
Ghousia College of Engineering, Ramanagara 2020–2024

CGPA: 8.36/10

Training, Internships & Certification

Full Stack Java Development Training June 2024 – May 2025

- Completed hands-on training in Core Java, JDBC, MySQL, HTML, CSS, JavaScript, and MVC Architecture.
- Earned the Full Stack Java Development Certification.

Full Stack Web Developer Intern Oct 2022 – Nov 2022
Varcons Technologies Pvt. Ltd., Bangalore

Web Development Intern (Python) Aug 2023 – Sep 2023
Take It Smart (OPC) Pvt. Ltd., Bangalore

- Built responsive web applications using HTML, CSS, JavaScript, and Python while participating in testing, debugging, and feature enhancement activities.
